

Professor Dr Ali Sharaf Al Musawi

Curriculum Vitae

Professor Ali Sharaf Al Musawi was appointed at Sultan Qaboos University in 1985. He has planned and taught approximately (22) different courses in the fields of educational technology, e-learning, learning resources and technology centers and other courses at the under-and-postgraduate levels. He has conducted and published (184) scientific works such as research, books, articles and academic reports. He has obtained (17) research projects grant, worked in (115) scientific committees, and attended (87) academic conferences and symposia at various institutional, national and international levels. He has supervised, reviewed, and discussed (83) Master and PhD theses in national and international universities. He is currently an Emeritus Professor at Sultan Qaboos University.

The research and creative work of Professor Ali Sharaf Al Musawi was based on a mixture of constructivism and connectivism theories where he conducted and published educational research, in which he followed the quantitative and qualitative approaches using experimental design, comparative and correlational research, focus groups, case studies, digital ethnography and meta-analysis methods. His efforts were focused extensively on technology applications in basic education schools as a tool to solve problems such as the effective use of technology to solve problems of reading weaknesses and the lack of laboratories. In addition, his research focuses on the extent to take advantage of technological capabilities at the levels of the Ministry of Education to activate innovative solutions such as electronic administration, electronic supervision and electronic training and strategies as well as ethical issues for technology.

In the field of community service, Prof. Dr. Ali Sharaf Al Musawi has always been in contact with scientific forums and individuals within areas of specialization and interest in the Omani society. His philosophy has always been based on helping others, especially young people from the younger generation. He has contributed to the establishment of the Department of Instructional and Learning Technologies at Sultan Qaboos University, became the head of that Dept. and administered the Center of Educational Technology. He also participated in dozens of service committees at the university and national levels, and actively participated in social development efforts through personal participation in public lectures and events. He was among the founding members of the Omani Society of Education Technology, the Omani Cultural Club, the Literary Forum, and the Scientific Club. He also played a role in establishing educational television in the Sultanate and the spread of media and media education culture.
